

AMERICAN

Self-Oiling GRINDERS

On November 4, our new plant, which is just twice the size of our present one, will be completed. This will give us a capacity of 1000 grinders per day. And every grinder carries our guarantee, in writing.

American Nos. 1, 2, 3, and 4 Self-Oiling Grinders

A perfect type of balanced, smooth running tool grinder. Steel cut gears run in oil bath in oil tight gear case. Finished in black baked enamel.

Dealers handling this line know the profits it brings. The dealers who do not, as yet, should get our catalog. American Grinders sold by all the leading Jobbers.
